Cable breakouts

CBR products seal breakouts in multi-conductor cables and conduit.

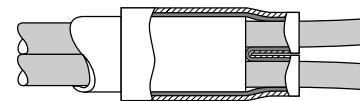

These seals are made of tough, crosslinked polyolefin to provide mechanical protection and strain relief. CBR seals have an adhesive-coating on the body and the legs to form a durable watertight seal, and conform tightly to conduits and cable jackets.

Qualified to ANSI/IEEE C119.1-1986.

For use on standard poly- or elastomeric insulated/ jacketed multi-conductor cables or cables in metal or plastic conduits.

CBR-Plug** (for use only with asterisked items above)			

*Will accommodate CBR-Plug.

Ordering information

1. Select the appropriate catalog number. Selection use ranges are based on typical dimensions for low-voltage insulated cable. Confirm selection with dimensions to assure proper sizing.
2. CBR-Plugs are for blocking and sealing unused legs of breakouts. The plug will fit those items asterisked (*) above.
3. See page 21 for technical information.
4. Standard package: CBR: 3 breakouts/box, CBR-Plug: 6 pieces/box.
